Appendix I: References

Appendix II: Glossary of Terms

SECTION I: CHRONOLOGICAL SUMMARY

Year 1980

3 – 30 June: Interim dry-docking in USS SUSTAIN (AFDM -7) in Norfolk, Virginia. Major repairs included:

- Replacement of ship's propeller
- Replacement of Sonar Array, both WQC Transducer Heads and the Fathometer Head
- Diesel engine and thin hull inspections were performed
- Work performed on the hull-included replacement of sacrificial cathodic protection, sandblasting and repainting

(Reference #1)

December to 6 January 1981: Vessel import Norfolk, Virginia for upkeep and holiday stand down. (Reference #1 & #2)

Year 1981

1 September to 2 April 1982: Vessel entered Norfolk Shipbuilding and Dry-dock Company, Brambleton Plant. Norfolk, Virginia, for overhaul. (References #2 & #3)

Year 1982

28 April: Crew ripped out existing berthing facilities and replaced with new facilities. (Reference #3)

29 April to 16 June: Vessel entered floating dry-dock USS SUSTAIN (AFDM -7) to correct shaft misalignment. (Reference #3)

3 May to 23 September: Diver's Life Support System was rebuilt or replaced. (Reference #3)

Year 1983

18 – 21 April: Vessel in-port Norfolk, Virginia, Deck Department performed finishing touches on ship's exterior for upcoming Change of Command Ceremony. (Reference #4)

20 June to 17 July: Vessel in-port, Norfolk, Virginia, Ship's Force Upkeep was performed. (Reference #4)

23 – 31 July: Vessel in port, Norfolk, Virginia, Ship's Force Upkeep was performed. (Reference #4)

31 August: Beginning of four-week upkeep and load-out for upcoming deployment performed. (Reference #4)

4 – 9 November: Ship's Force Upkeep was performed on vessel. (Reference #4)

Year 1984

12 January: Vessel entered Naval Base Charleston to repair Underwater Sonar and Telephone. (Reference #5)

26 January to 27 February: Vessel in-port Norfolk, Virginia for Intermediate Maintenance Availability and Ship's Force upkeep. (Reference #5)

18 – 26 March: Ship's Force upkeep was performed on vessel. (Reference #5)

24 April to 6 May: Vessel was in port for repairs including water-borne removal and propeller replacement. (Reference #5)

20 May to 3 June: Vessel in-port Norfolk, Virginia for Intermediate Maintenance Availability and Ship's Force upkeep. (Reference #5)

6 – 15 July: Vessel in-port Norfolk, Virginia, Ship's Force upkeep performed. (Reference #5)

26 July to 19 August: Vessel in-port Norfolk, Virginia, Ship's Force upkeep performed and preparation for upcoming event. (Reference #5)

Year 1985

14 January to 27 January: Vessel in port, Norfolk, Virginia, for Intermediate Maintenance Availability and Ship's Force upkeep. (Reference #6)

2 – 16 March: Vessel in port, Norfolk, Virginia for Intermediate Maintenance Availability and Ship's Force upkeep. (Reference #6)

8 – 21 April: Vessel in port, Norfolk, Virginia for Ship's Force upkeep. (Reference #6)

29 April to 17 May: Vessel in port, Norfolk, Virginia, for Intermediate Maintenance Availability and Ship's Force upkeep. (Reference #6)

24 November to 13 December: Vessel in port, Norfolk, Virginia, for Intermediate Maintenance Availability and Ship's Force upkeep. (Reference #6)

Year 1986

January to April: Number 2 Ship's Service Diesel Generator had been removed from vessel for emergency repairs. (Reference #7)

5 June to December: Vessel entered Detyens Shipyard for overhaul. Significant work completed included:

- New Ship's Service low air compressor installation

- Hull sandblasted, painted and preserved in dry-dock
- Number 2 Ship's Service Diesel Generator Engine replaced
- Ship's Force overhaul of Number 3 Diesel Generator Engine
- All four propulsion generators refurbished
- Number 1 Auxiliary Boiler re-tubed
- Number 2 Main Motor rewound
- Steering system overhauled
- Propulsion switchboard reworked
- Minor repairs to all four Main Propulsion Diesel Engines
- Bromination System for portable water installed
- Oily Waste Separator System installed
- Diver's Air Flasks pulled, cleaned, hydrostatically tested and reinstalled.
- Deck Handling equipment overhauled
- Diver's port and starboard Boat Booms, and Main Cargo Boom refurbished and weight – tested.
- Ship's package Air Conditioning Units overhauled
- ACMG sets reworked
- All tanks blasted with all fuel oil system lines flushed
- Navy Modular Automated Communication System installed in radio
- UHF/DAMA System installed in radio
- New Underwater Log System installed
- Extensive preservation throughout ship including all bilges, shaft alley and various compartments and spaces
- Anchor Windless reworked

(Reference #7)

18 December: Number 2 Main Propulsion Motor casualty occurred during sea trials. (Reference #7)

Year 1987

February: Post overhaul repairs were made to vessel in Charleston, South Carolina. (Reference #8)

14 June to 20 July: Vessel upkeep (Reference # 8)

10 October: vessel arrived in Norfolk, Virginia for four-week upkeep. (Reference #8)

Year 1988

23 March: Minor damage sustained while mooring at Massachusetts Maritime Academy, Buzzards Bay, Massachusetts. Emergency repairs were performed pier-side. (Reference #9)

13 April: Vessel returned to Norfolk, Virginia and began upkeep. (Reference #9)

29 May: Vessel returned to Norfolk, Virginia and began upkeep. (Reference #9)

14 – 28 June: Vessel entered dry-docks at Brambleton to have sonar transducer changed out. (Reference #9)

Year 1989

25 March to 20 April: Vessel was in port in Norfolk Virginia to perform upkeep to support upcoming Mediterranean deployment: (Reference #10)

20 April: Vessel dry docked in floating dry-dock USS SUSTAIN (AFDM -7) to replace WQC in the SQS-52 Dome. The propeller was cleaned and 24 zincs (Cathodic Protection) were replaced. (Reference #10)

2 December: Vessel was damaged and repaired off Florida during Trident missile exercise. (Reference #10)

Year 1990

16 January to 4 April: Vessel entered Norfolk Shipbuilding and Dry-dock Company, Brambleton Plant, Norfolk, Virginia, for a Selected Restricted Availability overhaul. Major work performed included:

- Crews Habitability Refurbishment to galley equipment
- Refurbishment of Four Point Mooring racks
- Refurbishment of Air Conditioning units
- Refurbishment of Ship's evaporators
- Installation of a 6 KW Onan Generator and Emergency Power Supply to the radio
- Vessel dry-docked for hull preservation and propeller change and Fresh Water tank preservation
- (Hull damage from 2 December 1989 exercise repaired)

(Reference #11)

9 August to 9 September: Vessel was in port, Norfolk, Virginia for upkeep. Work performed included:

- Replacement of Number 1 Exciter Coupling and motor
- Inspection and cleaning of Main Propulsion Motors and generators
- Replacement of three Watertight doors
- Overhaul of Number 2 Steering Motor gear Case

(Reference #11)

21 – 26 September: While conduction operation, vessel experienced casualty to Number 2 Ship's Service Diesel Generator. (Reference #11)

18 – 21 October: Vessel in port and repairs were made to Ship's Service Diesel Generator. (Reference #11)

25 – 28 October: While vessel was underway to Kittery, Maine, winds blew off LN-66 Radar Dome and minor flooding occurred. (Reference #11)

4 November to 31 December: Vessel moored at Norfolk, Virginia for upkeep and holiday stand down. (Reference #11)

Year 1991

2 February to 10 March: Vessel was moored in Norfolk, Virginia; routine Ship's Force maintenance was performed. (Reference #12)

29 March to 8 April: Vessel was moored in Norfolk, Virginia; routine Ship's Force maintenance was performed. (Reference #12)

11 – 21 April: The Number 2 Ship's Service Diesel Generator balance coil melted (Reference #12)

4 May to 9 June: Vessel was in-port Norfolk, Virginia for Tender Assisted upkeep. Major work performed included:

- Replaced all flex hoses on Main Engines
- Overhauled all major vent fans
- Rewound electrical motors for forward and port Capstans and port and starboard boat winches
- Overhauled Driver Booms
- Overhauled Number 3 Ship's Service Diesel Generator
- Repaired Stern Rollers
- Completed extensive ship preservation

(Reference #12)

4 – 14 July: Vessel was in port, Norfolk, Virginia, routine ship maintenance was performed. (Reference #12)

25 July to 4 August: Vessel was in port, Norfolk, Virginia, routine ship maintenance was performed. (Reference #12)

28 September to 31 October: Vessel was in port, Norfolk, Virginia, conducting self-upkeep and coordinating repairs to Number 1 Main Engine with the manufacturer. Extensive Ship's Force maintenance that was accomplished included:

- Overhauled starboard Auxiliary Hawser

- Overhauled Ship Steering System
- Performed maintenance on all Main Engines
- Cleaned freshwater tanks
- Cleaned and inspected fuel tanks
- Cleaned and inspected Ship's Service Diesel Generators
- Repaired communication equipment
- Worked Submarine Rescue Chamber certification items
- Replaced medium pressure relief valves
- Worked cargo booms and replaced lower wire

(Reference #12)
